INTRODUCTION

The North Jersey Transportation Planning Authority (NJTPA) represents a diverse region of 6.7 million residents in northern New Jersey. These profiles summarize languages, races, ethnicities, national origins and poverty levels present in each of the 13 counties and two cities—known as subregions—that are represented by the NJTPA Board of Trustees. They were created to help inform public and stakeholder engagement and to improve outreach efforts. Public engagement methods can be tailored to the specific language needs and cultural preferences in each subregion to yield greater and more meaningful involvement from groups that have been traditionally underrepresented in the decision-making process.

DATA SOURCES

The data used to develop these profiles is from the American Community Survey (5-year estimates, 2013-2017). Specifically, the following data tables available through the U.S. Census Bureau's online data portal were referenced.

- » B02015: Asian Origin
- » B03001: Latino Origin
- » B03002: Race and Ethnicity
- » B05006: Place of Birth
- » DP02: English Proficiency and Language Spoken at Home
- » S1701: Individual Percent of Poverty Level

In addition to the above data tables, these profiles include more detailed information about languages other than English spoken at the county level in the NJTPA region. This data was obtained from American Community Survey data tables titled "Detailed Languages Spoken at Home and Ability to Speak English for the Population 5 Years and Over: 2009-2013," available at this link: [census.gov/data/tables/2013/demo/2009-2013-lang-tables.html](https://www.census.gov/data/tables/2013/demo/2009-2013-lang-tables.html). Please note that data is only available for counties with more than 100,000 residents or more than 25,000 residents who speak languages other than English or Spanish.

Data was compiled for each of the 15 NJTPA subregions (13 counties and two major cities), the NJTPA region, and New Jersey.

BERGEN COUNTY

DIVERSITY PROFILE

- » **Large Asian and Hispanic populations.** Of Bergen County's 937,920 residents, 176,933 identify as Hispanic or Latino and 151,869 identify as Asian. Though the Hispanic population is large, the county's percentage of Hispanic residents (18.9%) is lower than both the NJTPA region (21.6%) and the state (19.7%). In comparison, the county's percentage of Asian residents (16.2%) is notably higher than the region (10.6%) and the state (9.4%).

Black or African American residents comprise 5.3% of the population (49,842 individuals), less than half the percentage in the region (11.7%) and the state (12.7%).

- » **Comparatively large Korean population.** Koreans are the largest Asian sub-group in the county. The 57,204 Korean residents comprise 37.5% of the county's Asian population, nearly triple the percentage in both the region and the state. Indians (37,101), Filipinos (21,436), and Chinese (20,539) are the next largest Asian sub-groups, though they are present in the county at comparable or lower percentages than in the region and the state.
- » **Top 4 foreign-born groups are Koreans, Indians, Dominicans, and Filipinos.** In addition to being among the largest Asian sub-groups, Koreans, Indians, and Filipinos are also among the top four largest foreign-born groups in the county. Of the county's 285,803 foreign-born residents, 15% are Korean, 8.6% are Indian, and 5.7% are Filipinos. Dominicans (6.1%) comprise the third largest foreign-born group, however they are present at a lower percentage than the region and the state.

Bergen County's population of residents originating from Poland numbers 12,192, 4.3% of the county's foreign-born population. This percentage is about two points higher than in both the region (2.4%) and the state (2.4%).

- » **Asian and Pacific Islander languages are more common.** Asian and Pacific Islander languages are spoken at home by 11.5% of the county's population, nearly double the percentage in the region (5.4%) and the state (4.8%). Nearly half (5.1%) of these residents, 45,209 individuals, have limited English proficiency. This is more than double the percentage in the region (2%) and the state (1.9%).

Individuals who both speak Spanish at home and have limited English proficiency comprise 5.6% of the county's population, or 45,722 individuals. This is lower than the percentage in the region (8.0%) and the state (7.1%). Spanish is spoken at home by 14.5% of the county's population, also lower than in the region (17.9%) and the state (16.1%).

- » **Dominicans, Puerto Ricans, and Colombians are the largest Hispanic sub-groups.** The largest Hispanic sub-groups in Bergen County are Dominicans (34,910 individuals) and Puerto Ricans (34,806). The percentage of Dominicans in the county (19.7%) is higher than the region (16.5%) and the state (15.1%). The percentage of Puerto Ricans in the county (19.7%) is lower than the region (23.3%) and the state (27.2%). Colombians are the third largest Hispanic sub-group, numbering 20,777 individuals, and they are present at a higher percentage (11.7%) than in the region (7.8%) and the state (6.9%).
 - » **7.2% poverty rate.** Bergen County has a poverty rate of 7.2%, which is lower than in the region (10.5%) or the state (10.7%). Bergen County's share of individuals with income below 185% of the poverty level, at 16%, is also lower than the region (21.8%) and the state (22.2%).
