Mileposts: 0.5-0.56

DBNUM: 99405

Name: Camp Meeting Avenue Bridge over Trenton Line, CR 602

Initiated by the Bridge Management System, this project will replace the "orphan" structure, which is in critical condition, built in 1889 and modified in 1914. The replacement of this structure will be designed so as not to preclude improvements needed to reintroduce passenger service to the West Trenton Line, as well as increasing the height of the bridge to allow the current tracks to be raised to address ongoing railroad operational issues, as identified in the NJTPA Grade Crossing Assessment Study. The current bridge provides a single lane of traffic, has steep grades on the approaches and has substandard vertical sight distance. The new bridge will be wider to accommodate two traffic lanes, and the grade and vertical sight distance will also be improved.

The Valley Road Bridge (Morris County Bridge No. 1400-539, Somerset County Structure No. H1110) carries Valley Road (CR 512) over the Passaic River between Bernards Township, Somerset County and Long Hill Township, Morris County. This bridge is a Bi-County Bridge maintained by Somerset County. Based on the most recent Bridge Re-Evaluation Survey Report, dated 10/13/17, the existing bridge is in overall poor condition due to the condition of the substructure and low inventory ratings. Due to low inventory ratings, the bridge is structurally deficient. In addition, the reported Sufficiency Rating is 48.2 out of 100. This is a bridge replacement project.
